

Vo Van Tu Tai

BUSINESS ANALYST INTERN · PRODUCT & TECHNICAL ANALYSIS · INFORMATION SYSTEMS

Ho Chi Minh City, Vietnam GitHub Portfolio LinkedIn tutaivovan@gmail.com

REQUIREMENTS · BPMN / UML · WIREFRAMES · DATA MODELING · TECHNICAL COLLABORATION

PROFESSIONAL SUMMARY

Information Systems student pursuing a Business Analyst internship, with project-based experience translating operational needs into workflows, use cases, business rules, data models, wireframes, API contracts, dashboards, and reports. Hands-on logistics experience strengthens domain analysis; full-stack knowledge supports clear collaboration between users, product stakeholders, designers, and developers.

BUSINESS ANALYSIS & PRODUCT SKILLS

Requirement Analysis

User stories, use cases, business rules, functional requirements, acceptance criteria fundamentals

Process Modeling

BPMN/UML familiarity, as-is/to-be workflows, actors, status transitions, system boundaries

Data Analysis

ERD, SQL, data relationships, field mapping, dashboard and PDF/Excel reporting requirements

Product & UX

User journeys, MVP scope, prioritization fundamentals, wireframes, user and stakeholder perspectives

BA & Design Tools

Jira for task/backlog tracking; **Figma** for UI flows; **Draw.io** for process, ERD, and system diagrams

Technical Literacy

Postman, OpenAPI, REST APIs, GitHub, web architecture, MySQL/PostgreSQL, PHP/Express

SELECTED ANALYSIS PROJECTS

Requirements · Process & Data Modeling · Product Workflows

Analysis artifacts supported by working applications, architecture models, and repository documentation

- **Nexus Express · Logistics Management System:** Converted branch operations into end-to-end shipment, pickup, scan, dispatch, hub, delivery, COD, tracking, and reporting flows; defined actors, status transitions, service boundaries, data ownership, OpenAPI contracts, and domain events.
- **Tourist Accommodation Platform:** Analyzed customer, provider, and administrator journeys; translated booking, payment, cancellation, review, moderation, dashboard, commission report, and Excel export needs into role-based functional flows.
- **Song Tai Shop:** Defined customer/admin use cases and business rules for product discovery, account access, cart, checkout, order status, content, authorization, product/order management, and statistics.
- **Cab Booking System:** Modeled customer, driver, and administrator use cases across booking, ride lifecycle, pricing, payment, notification, review, and support; mapped REST contracts and data ownership to domain responsibilities.

DOMAIN EXPERIENCE

Post Office Operations Staff

Dec 2025 - Mar 2026 · Full-time

J&T Express

- Handled shipment processing, branch logistics, inventory control, exceptions, and daily operational coordination.
- Applied first-hand domain knowledge to validate actors, statuses, scan points, edge cases, and operational scenarios in Nexus Express.

EDUCATION

Industrial University of Ho Chi Minh City (IUH)

2022 - Present
HCMC, Vietnam

Bachelor of Information Systems · GPA: 3.22/4.0 · Expected Graduation 2027
